CITY SCHOOL BOARD.—It was after eight last night before a quorum was obtained in the City School Board. At that hour Messrs. Addison, J. S. Beach, W. F. Carne, Hopkins, Snowden, Whitteley and Witter were present.

The minutes were read, corrected and approved. Mr. Witter, from the Finance Committee, reported as correct the following bills, viz: James Green, rent, \$25; Alexandria Gazette Job office, printing, \$7.50; Virginia Sentinel, advertising, \$2.50; Charles L. Powell, rent, \$31.25; George Duffey, rent, \$18.75; John Fields, extra work, \$4. All were ordered to be paid except the last, which, on motion of Mr. W. F. Carne, was laid on the table.

Mr. Hopkins, from the Committee on School Houses and Furniture, reported that he had furnished the colored schools with clocks and curtains, and Washington School No. 2 with desks, and paid the bills for white-washing, but that as all his bills were not in, he would have to postpone a full report until next meeting.

On motion of Mr. Wm. F. Carne, fifty dollars was appropriated in favor of the chairman of the Committee on School Houses and Furniture, to be used for contingent expenses, the fifty appropriated heretofore having been expended.

The City Superintendent reported that the white schools had been filled before the opening, and that while there were some few vacancies in the upper grades, the lower were over full and a number of children waiting admission. The colored schools had filled up slowly at first, and he had employed but two teachers at first, and subsequently, more children had entered, and a third teacher had been employed in each school. If 170 entered in each, he proposed employing the fourth. At his request the clerk stated the number of permits granted thus far this year, which are as follows: Washington, (white boys,) 359; Lee, (white girls,) 231; total white, 590; Snowden, (colored boys,) 144; Hallowell, (colored girls,) 166; total colored 310; for all the schools, 900; an increase of 203 over last year, 80 for white, and 143 for colored children.

On motion of Mr. W. F. Carne, the Superintendent was authorized to open more schools, if, in his judgment, it should be necessary.

The Superintendent stated that he had secured \$1,500 from the Peabody Fund for next year, and also that he had commenced to write out a full report of the public school affairs of the city for presentation to this meeting, but, not having been able to obtain some necessary information, and some estimates of the probable cost of converting the court-house into a public school-house, which he desired to submit to the Board and the City Council, in time for this meeting, he would like to have authority to have it printed, in advance of its presentation to the next meeting.

On motion of Mr. Hopkins, the Superintendent was authorized to have his annual report printed.

The Superintendent reported his action in requiring teachers to report vacancies to the Principals, and in being guided by the Principals and Vice Principals in the hours of opening, recess, closing, &c., for the judgment of the Board, as to whether it conflicted with the rights of teachers under existing regulations, when, by general consent, it was judged that it did not conflict; the rule giving him "direction, supervision, and control," furnishing authority.

On motion of Mr. W. F. Carne, the Committee on Studies and Discipline was directed to revise the By-laws and Regulations for Schools so as to make them conform to the changes in organization which have been made.

Mr. Witter, who was unavoidably absent from the last meeting, enquired why a distinction had been made at that meeting in fixing the salaries of assistant teachers.

The Superintendent replied that he had accepted an amendment to his resolution fixing salaries, offered by Mr. J. S. Beach, simply because he thought it a movement in the right direction, as the salaries were generally too low. Our best teachers would leave us if they were not paid as well as elsewhere.

Mr. J. S. Beach said he had offered the amendment because he thought the difference in salary between the Vice Principals and assistants too great and desired to equalize.

Mr. Whitteley then moved to fix the salaries of all assistants who were of first grade now receiving \$35 at \$40 a month. He thought this would stimulate all the teachers to study up, with a view to passing better examinations, and, so, would improve the schools.

The Superintendent concurred, fully, in Mr. Witter's views; there were but two such teachers in the employ of the Board, and while the proposed increase would cost but \$100, its influence on the improvement of the schools would be very great. He had thought of recommending a gradual increase of salary proportioned to time of service, as was the rule in some other cities, but he thought Mr. Witter's plan better.

Mr. W. F. Carne doubted the expediency of altering the salaries after they were once fixed, as did, also, Mr. Hopkins.

Mr. J. S. Beach favored an increase of all the assistants' salaries on a graded scale, if any change was to be made.

Mr. Snowden was afraid that trouble might arise from a change unless the matter was more maturely considered; he moved its reference to a special committee, which was carried, and Messrs Witter, W. F. Carne, and J. S. Beach were appointed the committee. Mr. Snowden being excused from serving on it at his own request.

The Board then, at 9:40, adjourned.

GOOD ADVICE TO PARENTS.—In the September number of the Academy Journal, just issued, we find the following excellent advice to parents, from the Principal of St. John's Academy, which will apply quite as well to all our other schools as to that, and which we commend to those who have children at school:

"Now is the time for you to aid us by your co-operation. We can't teach boys who don't study, and some will get tired of study unless it becomes a habit with them. Do your best to make it a habit. Give them a quiet place for study, and keep them at home every night. Ask them frequently what they are doing at school, and, if you find anything amiss, let us know; we are not afraid of having our work

examined into. If you can find the time, we will be very glad to see you in our school-rooms, at any hour, as spectators, provided you won't expect us to stop our work to converse with you. Show an interest in your boys' studies, and they'll think them of more importance than they will be apt to do otherwise.

"On the fifth of October, the Academy Journal will appear, with the Roll of Honor; every boy's name can be upon it if he tries hard, and you must insist that it shall appear there. Offer some little reward if it does; threaten some privation of an expected pleasure if it does not; and keep your promises."

We are glad to learn that a much larger share of patronage from abroad than heretofore has fallen to the lot of St. John's this year.—Alexandria used to be a great educational centre for the surrounding country, and ought to be so again. Our schools are good; the health and morals of our city unrivalled, and the cost of living low, while few places are so accessible at all hours to parents, if they wish to visit their children in case of sickness or otherwise.

CORONER'S INQUEST.—A Coroner's inquest was held on Wednesday last by Justice R. R. Fowle upon the dead body of a colored female child found in a thicket about seventy-five yards from the main road, near Green Spring, on the Mt. Zephania farm, a short distance below this city, and the jury, of which Richard Nevitt was foreman, rendered a verdict of "death by the hands of its mother, a colored woman named Josephine King, alias Joe Branson." The evidence adduced was to the effect that the child had been living at the house of a colored man named Basil Butler, but that its mother had been told that she must come and take it away; that six weeks ago she did come and take it away, together with a bundle of its clothes; that she started up the road near which its body was afterwards found; that about half an hour after she left Butler's house she was met by Henry McWilliams, but that she had no child with her then, and when asked by him what had become of the child, hung her head and passed on without making a reply. She remained in the neighborhood about two weeks after the removal of the child from Butler's, during which time she had no child with her, and then disappeared.

RECEIPTS BY RAILROAD.—The following are among the receipts by the Orange Alexandria and Manassas Railroad for this week:—Corn 1,140 bushels, wheat 6,090, rye 100, oats 100, onions 3 bbls., dried fruit 12 bags, quinces 3 bbls., peanuts 2 bags, flaxseed 1 bag, sumac 64 sacks, flour 384 bbls., time 200, vinegar 2 ciders 3, butter 19 firkins, eggs 16 boxes, hay 38 bales, ground bark 315 sacks, hides 7 bundles, wood 14 cords, pig iron 182,400 lbs., apples 7 bbls., leather 24 rolls, sheep skins 1 bale, calf skins 1 bale, wool 28 sacks, sheep skins 1,346, fowls 23 coops, beeswax 19 lbs., rags 8,483; iron and bones 15,762, lumber 57,000 feet, calves &c. 34 head, cabbages 6 bags, tobacco 3 boxes, cattle 7 cars, sheep 1 car, cattle and sheep 1 car, and 5 cars.

During the week the receipts by the W. & O. R. R. were as follows:—Wheat 3,580 bushels, corn 296, oats 188, meal 52, flour 17 bbls., vinegar 3, butter 47 bbls. and kegs, eggs 19 bbls. and boxes, fruit 137 bbls. and boxes, tomatoes 19 boxes, honey 1 case, fowls 14 coops, calves 35 head, onions 3 bags, hay 14 bales, sumac 5,538 lbs., plows 3, hides 9 bundles, wood 4 car loads, stock 1, marble 1, milk 50 gallons.

RAILROAD ACCIDENT.—Owing to the washing of the A. & F. R. R. the passenger and baggage car of the train due here yesterday evening from Quantico ran off the track in a deep cut at Freestone Point. The few passengers on board got out on the locomotive and arrived in this city late in the night. A repair train was sent down immediately, and the track is now in good order again. The through train from Richmond that left here at midnight could not go through, nor did the Quantico train leave this morning, but hereafter all the trains will run as usual.

BLACK BASS.—It is understood from a gentleman from the county, that there has been fine sport on the canal near the outlet gate at Four Mile Run in catching this delightful fish for the past few days. One sportsman from Washington caught several weighing over three pounds each. The best time for fishing is said to be just after dark, and live bait is preferred. This fish was introduced into the upper Potomac some years ago, and has found its way into the canal. Perch and other fish are also caught in abundance.

THE PIONEER MILLS.—Mr. J. H. Russell, the purchaser of the Pioneer Mills, was in this city to-day, and with an engineer inspected that property and the machinery it contains.—He expects that the necessary repairs and alterations can be completed in ninety days, and that by that time he will have the mill running to the full extent of its capacity—800 barrels of flour a day.

CLOSE CONNECTION.—The track of the Lynchburg and Danville railroad is now being laid from the Orange depot to the Transfer Platform of the Virginia and Tennessee track, and in a day or two the cars of the Orange road will run as far as the Tennessee track, thus affording a convenient and very desirable transfer for passengers by the Northern and Southern trains.—*Lynch. News.*

ERRATA.—In yesterday's Gazette the credit to the late poisoning case in Loudoun, which have been given to the Leesburg Telegram instead of Washingtonian; and in the Local Briefly about two blocks of marble from Loudoun, tons should have been pounds.
